Customer Updates

- *Cascade Healthcare Community (CHC)*, located in Bend, Oregon and IHS continue to move forward with the 10.1.1. Working as a team, CHC, the vendor and IHS have pulled together to ensure a successful go-live, scheduled for December. While there have been challenges, there are many positive application changes and fixes that will be welcomed by the client base. This clinical go-live follows the successful financial and revenue cycle live in June.
- Helping to alleviate some resource shortages, IHS has added an additional support resource to the *Central Florida Health Alliance (CFHA)* clinical team. CFHA includes *Leesburg Regional Medical Center (LRMC)* and *The Villages Regional Hospital (TVRH)* located in Leesburg, Florida. We continue to build a strong partnership, rolling out Admin-Rx, assisting in the Business Office and providing temporary support.
- *St. Luke's Episcopal Health System (SLEH)*, located in Houston, Texas, has partnered with IHS for assistance implementing Horizon Meds Manager in the brand new St. Luke's Sugar Land Hospital, opening in October, 2008. We are happy to be working with the team at SLEH again!
- IHS recently teamed up with our friends at *Aspen Advisors, LLC* to provide Longmont United Hospital (LUH) strategic consultation on their clinical and financial IT initiatives. LUH is located in Longmont, Colorado.
